

CONNECTING INTERNATIONAL CLIMATE FINANCE TO LOCAL NEEDS

Trillions need to be invested in a low-carbon future over the coming decades to limit global temperature rise to 1.5°C. International climate finance can help close the emissions gap, while enabling countries to develop sustainably in line with their national priorities. Ecofys connects international climate finance to local needs to facilitate low-carbon implementation. We work along the entire chain from the funding source to the recipients.

OUR APPROACH

Provide the tools

We advance climate finance investments through expertise at a policy framework and instrument level. We support you in shaping mitigation strategies and designing financial mechanisms.

Make it happen on the ground

We support investors and project developers to prepare and implement bankable projects and donors to identify investment opportunities. We connect international and local actors.

UNLOCK CLIMATE FINANCE

Improve the impact of climate finance

We track and evaluate the impact of climate finance to drive improvement.

OUR CLIMATE FINANCE TEAM

We are a dedicated and highly skilled international team comprising economists, financial specialists, political scientists and technical experts from all continents. We work with governments, financial institutions, investors and businesses across the globe. Our expertise is supported by strong in-country experience across Europe, Latin America, Africa and Asia.

ABOUT ECOFYS

Established in 1984 with the mission of achieving "sustainable energy for everyone", Ecofys has become a leading expert in energy policies, climate strategies and policies, energy systems and markets, urban energy as well as sustainable industries and services. The unique synergy between these areas of expertise is the key to its

success. Ecofys creates smart, effective, practical and sustainable solutions for and with public and corporate clients all over the world. With offices in Belgium, Germany, the Netherlands, and the United Kingdom, Ecofys employs over 200 experts dedicated to solving energy and climate challenges.

UNLOCK CLIMATE FINANCE

How we can support you

We:

- Design innovative financial instruments
- Provide strategic advice for corporates, national and international institutions
- Help shape policies that mitigate barriers for climate investments

Our experience

- Future options for the World Bank's Pilot Auction Facility
- European Investment Bank's first Climate Strategy
- World Bank's flagship State and Trends of Carbon Pricing report
- Results-based finance mechanism in the Tunisian cement sector
- Bankable NAMA proposals in Tunisia, Ethiopia, and Georgia, Ethiopia's INDC, and green growth strategies in Uganda and Kosovo

How we can support you

We:

- Enable the implementation of NDCs
- Develop pipelines of bankable projects and programmes
- Support access to climate funds (e.g. GCF, NAMA Facility)

Our experience

- Pathways from Paris – assessing the INDC opportunity for the Energy Transition Commission
- NAMA concept for one of the first NAMAs financed by the NAMA Facility under the Mitigation Momentum initiative
- Facilitating access to NAMA Facility funding for the building sector in Tunisia
- Helping SMEs in Pakistan to access international funding through capacity building on the GCF
- Investment risk mitigation tool for the Global Green Growth Institute

How we can support you

We:

- Develop Monitoring, Reporting and Verification (MRV) systems at a project, programme or policy level
- Evaluate the impacts of projects, programmes and policies
- Map global flows of climate finance

Our experience

- Measurement of progress in aligning the financial system with sustainable development outcomes for UNEP Inquiry
- Green Finance Mapping for the International Development Finance Club (IDFC)
- Evaluation of the Mitigation Action Plans & Scenarios (MAPS) programme
- Analysis of EU climate finance instruments and private finance flows for BMUB
- MRV system for the building sector for the Tunisian National Energy Conservation Agency
